Moulin de verville, 95760  
Valmondois, France

PREVOR

### Advantages

- Fixed and easily identifiable.
- Easy and ready to use.
- Allows quick action without assistance.
- The entire face can be washed, with an LPMD eyewash for each eye and MINI DAP spray.
- Gentle washing without pressure. Autonomous system.
- Sterile solution.
- Easy control of the washing effectiveness: Use each single packaging in its entirety.
- Easy and adaptable installation.
- Watertight, in accordance with industrial hygiene and cleanliness.
- Without special care and without special installation (no need for electricity or evacuation, pipe or valve, no more leakage problems...).
- The washing station wall is therefore easily removable for independent work spot to modular nature.
- In conformity with EN 15454-4.
- EC certification.
